Offering Inter-County Service

●

Realtors, Bankers, Attorneys, Loan Agents:

You will find it convenient to place title orders and escrows on properties in "outside" counties here. Personal contact with our escrow department is a distinct advantage.

Sacramento City is the financial center of the Sacramento Valley, doing an ever increasing loan and real estate business throughout Northern California. It is our pleasure to act as a clearing house for this business.

We can be of real service, too, because of our understanding of local title conditions and the methods of conducting business in the various county seats.

Directory of Householders

Occupants of Office Buildings and Other Business Places
Including a Complete
Street and Avenue Guide

1949

COPYRIGHT, 1949, BY SACRAMENTO DIRECTORY CO.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenants. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupations of others refer to Alphabetical List of Names.

Numerical Streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol 🔔 preceding the name denotes householders and places of business having telephones.

(This section includes some listings reading "No return." In each case the publishers tried diligently, by various means, to obtain the information for the occupant but were unsuccessful. First, several personal calls were made by an enumerator; next, a double post card was mailed and the telephone used when possible.)
